

ODIEN

About Us

Odien is an investment firm which offers services to investors and companies in Europe and the United States.

Odien aims to acquire control or significant equity positions in companies in the region and typically invests in special situations consisting of restructurings and complex transactions as well as actively managed investments in a variety of sectors and industries that offer high growth potential in the medium-to-long term.

Our mission at Odien is to create superior investment returns through a value-added investment approach. We identify investment opportunities through our extensive network of contacts.

Odien professionals undertake in-depth strategic, industry and financial analysis in evaluating a potential investment.

Odien also provides support in successfully implementing effective business plans which include expansions, acquisition support, financial reporting and controls, and capital optimization and operating strategies.

Odien professionals abide by the highest ethical norms in conducting its business and observe the highest level of legal standards.

Services

- » Business administration – managing all aspects of a company's business in order for it to function effectively and efficiently and position it for future growth.
- » Business, Economic and Business organization consultancy – providing expert advice in a specific business area of operations.
- » Investment consultancy – help investors in managing their portfolio and with their long-term investment planning.
